#### XPORTS OF SUGAR AND CORN INCREASE

WASHINGTON, July 1.—Very large shipments of corn and sugar featured the export trade of the country for the first five months of 1922, according to a survey issued by the com-merce department.

Corn, and wheat have practically changed positions as compared with the irst five months of 1921, the department declared, corn exports being double those for the January-May

period of 1921.

"Several factors," the department said, "have affected the trade in these two commodities. Declining stocks of wheat in this country have helped to sustain domestic prices. On the other hand there has been an enormous surbiles of corn at a relatively low price. hand there has been an enormous surplus of corn at a relatively low price

and other competing cereals. In addition, corn has been used very largely in relief work. Its low price has
also caused it to be used freely in Europe as food for livestock and in brewing and distilling."

Sugar exports for the first five
months of 1922, the department continued, exceeded one billion pounds
as compared with about a quarter of
